A career guidance cell (CGC) will help students to understand their future careers and provides guidance on a variety of topics:

- **Career counselling:** Helps students identify their interests, strengths, and career aspirations
- **Skill development:** Helps students improve their communication skills, soft skills, and interview preparation
- **Employability enhancement:** Helps students learn about current job trends and market demands
- **Internships and placements:** Help students find internships, summer training programs, and placement opportunities
- **Resume building:** Helps students create resumes and cover letters that highlight their skills and qualifications
- **Entrepreneurship guidance:** Helps students with entrepreneurial ambitions start and manage their businesses
- **Higher education opportunities:** Helps students select postgraduate courses and scholarships
- **Industry interaction:** Helps students interact with industry professionals
- **Campus placements:** Helps students prepare for campus interviews and final placements

Pharmacists can work in a variety of settings, including the pharmaceutical industry, hospitals, clinics, and regulatory agencies. They can also work in retail stores of medicines, open their own chemist shop, or work in IT industries.
